Java HotSpot(TM) 64-Bit Server VM (build 25.101-b13, mixed mode)
iosep@iosep-PC MINGW64 /
$ |
```

2. Instale o Actualice Java de ser necesario:
 - a. https://www.java.com/es/download/help/download_options.xml#windows
3. Instalación:
 - a. Doble click en **SEC-1.x-x64.exe**
 - b. Siga las instrucciones del instalador

Presione Run (Ejecutar)

Presione Install (Instalar)

The image shows a software window titled "SEC - Login". At the top, there are two input fields labeled "IP:" and "Port:", followed by a "Set Server" button. In the center, the text "SEC" is displayed in a large font, with "Sistema de Encuestas por Competencia" below it. Further down, there are input fields for "RUT:" and "Contraseña:", followed by an "Ingresar" button. The window has a standard Windows-style title bar with minimize, maximize, and close buttons.

Instalación Finalizada

[Cambiar Puertos Por Defecto](#)

El Sistema al iniciar tiene la opción de cambiar la dirección IP y Puerto (Port) del Servidor de Base de Datos.

This image shows a partial view of the "SEC - Login" window, focusing on the top section. It includes the "IP:" and "Port:" input fields and the "Set Server" button.
